

EC5 OXYTECH™

WATER FILTRATION SYSTEM

With RainSoft Remind Wireless App Connectivity

Untap cleaner, fresher water throughout your home.

The EC5 OxyTech Whole-House Water Filtration System reduces foul odors and staining caused by excess iron, manganese, and hydrogen sulfide to provide cleaner, revitalized water throughout your home.

Fresher Water

Reduced rotten egg smells caused by hydrogen sulfide means better showers, laundry, cooking, and drinking water

Cleaner Everything

See fewer red/orange stains in tubs, sinks, and toilets caused by excess iron

Wi-Fi Connected

Receive instant maintenance alerts from the system display and the RainSoft Remind App

Contaminant Reduction

Lab tested to reduce iron, manganese, and hydrogen sulfide contaminants

Limited Lifetime Warranty

Get peace of mind with one of the most comprehensive warranties in the industry

EC5 OxyTech Features

Intuitive Interactive Display

Easy to read and understandable system information is provided via a high resolution display.

Immediate Condition Response

Push any button to wake up the display and see the system status.

Power Outage Recovery

If power is lost during the regeneration process, the EC5 OxyTech will automatically recover and complete the process once power is restored to ensure that regeneration cycles are never missed.

Filter Media

The EC5 OxyTech media is a special blend of four minerals, each with specific removal characteristics that are designed to maintain a long life.

How the EC5 OxyTech Works

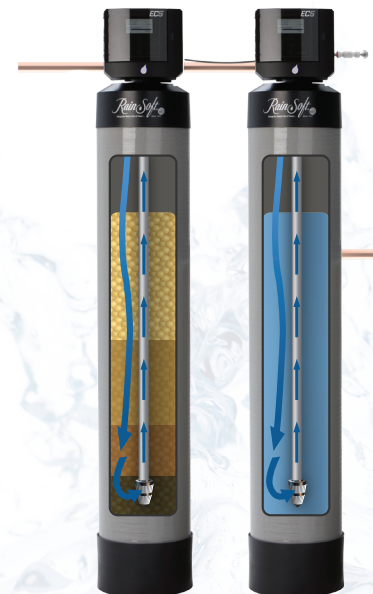

Water enters the EC5 OxyTech compressed aeration chamber. As the water passes through the chamber, the water becomes highly oxygenated. As the non-treated water flows through the compressed air chamber, the iron, manganese and hydrogen sulfide become oxidized, separating the minerals from the water and bonding to the oxygen.

The highly oxygenated water then flows through the multimedia filter bed where iron, manganese and elemental sulfur are trapped in the multimedia bed.

The system automatically regenerates to make sure cleaner, filtered water flows through your home.

CALIFORNIA RESIDENTS: Water treatment devices sold to retail consumers in California, accompanied by certain health claims, must be registered to California State Water Resources Control Board. This product is not registered in the State of California for the purpose of making health claims.

WISCONSIN RESIDENTS: This product is not certified and registered in the State of Wisconsin to remove hydrogen sulfide and sulfur.

The EC5 OxyTech series are UL listed. Refer to the manufacturer's Performance Data Sheet for specific claims and certifications.

Benefits will be provided by various types of RainSoft equipment when installed and operated according to manufacturer's recommendations. Operational, maintenance and replacement requirements are essential for the product to perform as advertised. All claims based on best available information at time of printing. Manufacturer makes no representations as to the suitability of this equipment for a particular application. Buyer relies entirely on dealer's recommendations in the purchase of this equipment. Independent RainSoft dealers may include, together with your RainSoft product, a product or component that is not manufactured by RainSoft or their parent company, Aquion, Inc. Any non-RainSoft product may be covered by the manufacturer of that product, and is not covered by the RainSoft warranty. Aquion, Inc. does not warrant that your RainSoft product and the non-RainSoft product will perform properly when used together, and assumes no liability therefore.
