

RainSoft

CLEANSTART LAUNDRY SYSTEM

Harness commercial-grade cleaning power.

The CleanStart Laundry System is an innovative solution to cleaner, fresher laundry straight from the wash.

Professional Laundry at Home

The CleanStart utilizes the same technology used in commercial-grade laundry machines

The Power of Oxidization

Oxidizing the wash water increases the efficiency of your detergent and tap water

Versatility

Works with all types of washing machines including top loaders, front loaders, and high efficiency models

Limited Lifetime Warranty

Get peace of mind with one of the most comprehensive warranties in the industry

CleanStart Features

Detergent Savings

The disinfecting and cleaning power of the CleanStart system greatly reduces the need for laundry detergent, softeners and bleach. *(Pre-treating of stubborn stains is recommended)*

Reduced Irritation and Longer Lasting Clothes

Since the system requires less use of detergent and other washing chemicals, common skin irritation is reduced and clothes last longer.

Energy Efficiency

Since only cold water is needed, the energy required to heat the wash water is eliminated, resulting in lower energy usage.

How the CleanStart System Works

The compact CleanStart unit is mounted behind your washing machine. Your washer's cold-water hose is re-routed to the inlet of the unit and another hose is connected to the outlet.

As the wash cycle begins, cold water flows into the CleanStart unit, where the flow switch automatically activates the unit, which injects the water with a controlled amount of ozone.

As the ozone-infused water is agitated in the wash basin, it begins to fold into the threads of the fabric, resulting in a highly efficient and disinfecting wash.

Benefits will be provided by various types of RainSoft equipment when installed and operated according to manufacturer's recommendations. Operational, maintenance and replacement requirements are essential for the product to perform as advertised. All claims based on best available information at time of printing. Manufacturer makes no representations as to the suitability of this equipment for a particular application. Buyer relies entirely on dealer's recommendations in the purchase of this equipment. Independent RainSoft dealers may include, together with your RainSoft product, a product or component that is not manufactured by RainSoft or their parent company, Aquion, Inc. Any non-RainSoft product may be covered by the manufacturer of that product, and is not covered by the RainSoft warranty. Aquion, Inc does not warrant that your RainSoft product and the non-RainSoft product will perform properly when used together, and assumes no liability therefore.
